Moscow, Russian Federation.

Kornilova Elina Sergeevna,

Head of Finance Department — Chief Accountant,
Regional public organization «The Professional Union of Health Workers in Moscow»,
Moscow, Russian Federation.

INFLUENCE OF THE CONDITION OF ACCOUNTING AND CREDITING ARREARS ON THE FINANCIAL SITUATION OF BUSINESS ENVIRONMENTAL STRUCTURES

Rapid changes in the business environment, the emergence of new demands and the growth of consumer income, increasing competition for resources, internationalization and globalization of the economy, the emergence of new business opportunities opened up by science and technology, the development of information technologies, the activation of innovation processes, the

changing role of human resources, as well as a number of other reasons led to a sharp increase in the importance of strategic management as a key factor in the development and implementation of sustainable competitiveness. eimuschestv organizations. First of all, you need to pay attention to the fact that success in business is a subject that is often discussed but not clearly defined. You can think of success as a quantitative measurement of an action performed, and a success measurement as a process of quantifying which allows you to establish a current result.

Analysis of key success factors is one of the main elements of strategic analysis and the link between the analysis of the external and internal environment of the enterprise. Taking into account the key success factors, the choice of priority strategic directions for the development of organizations is made. At the same time, the correct choice of key success factors and development strategies of organizations ensures an increase in its economic efficiency and competitiveness.

Within the framework of this article, answers are given to the questions of formation of receivables, as a debt of an individual entrepreneur, a legal entity or business structures before the debtor and in relation to the buyer-borrower, the policy of managing receivables becomes credit.

Keywords: accounts receivable, financial statements, accuracy, classification by purpose, source of information, responsibility, achievement of analysis objectives, mechanisms for the formation of strategic competitive advantages, analysis of key success factors.
